

Private Freight Exchange

BOOSTS YOUR PROFITS

More freight handled in a contract market

- more responses in a shorter time
- time savings – forwarders can fulfill more orders
- making full use of your carrier base

Higher margins

- more carrier offers and opportunities to negotiate

Maximum security

- your freight isn't publicly visible
- you reach reliable carriers only

Transparency and full control

- contact database, transaction and conversation history in one place
- reporting module: you can monitor your exchange and employee effectiveness

Operational efficiency

- automation of freight publication
- integration with your TMS
